At Consolidated Group, we specialize in civil engineering projects through a vertically integrated approach that ensures efficiency and control from development to delivery. Our in-house capabilities allow us to address a wide range of civil needs, from simple infrastructure to complex developments, with superior quality control and cost efficiency.

Our commitment to clear, effective communication throughout all project phases is a hallmark of our operations, recognized by awards such as the Civil Safety Program of the Year 2021 from CCFWA and the WHS Foundation Safety Management System in 2022.

We are dedicated to fostering a diverse and inclusive workforce, offering extensive training opportunities that promote professional growth and innovation.

Mining

Proud to Belong

MINING SERVICES

- Site clean-up crews
- Machinery hire
- Specialised tight access cleaning
- Mine site civil works
- Access road maintenance
- Skilled or unskilled labour hire
- Stockpile management
- Crushing & Screening

We provide various services, from mine site cleaning to stockpile management, site maintenance, weed spraying solutions and grading.

Our extensive experience and specialized equipment make us well-equipped to meet your needs. Safety is our utmost priority, ensuring the welfare and resilience of our team.

A full range of crushing and screening solutions with skilled project managers is available.

Core Beliefs

We believe diversity reduces risk

WE ARE OPEN & ADAPTABLE

We believe training underpins retention

WE KEEP LEARNING

We believe in evolving to stay ahead

WE LOOK FOR BETTER WAYS

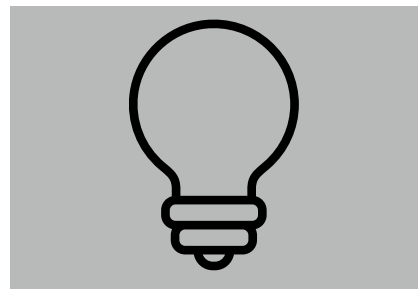

We believe working collaboratively drives success

WE WORK TOGETHER

We believe our brand is our people and assets

WE TAKE PRIDE

We believe in transparency and problem-solving

WE TAKE OWNERSHIP & FIND SOLUTIONS

Green Power & Green Fleet

Alternative Energy Technologies for heavy transport mobile equipment

Step One

Identify:
Who? Our People
What? Our Work
Where? Our Environment

Step Two

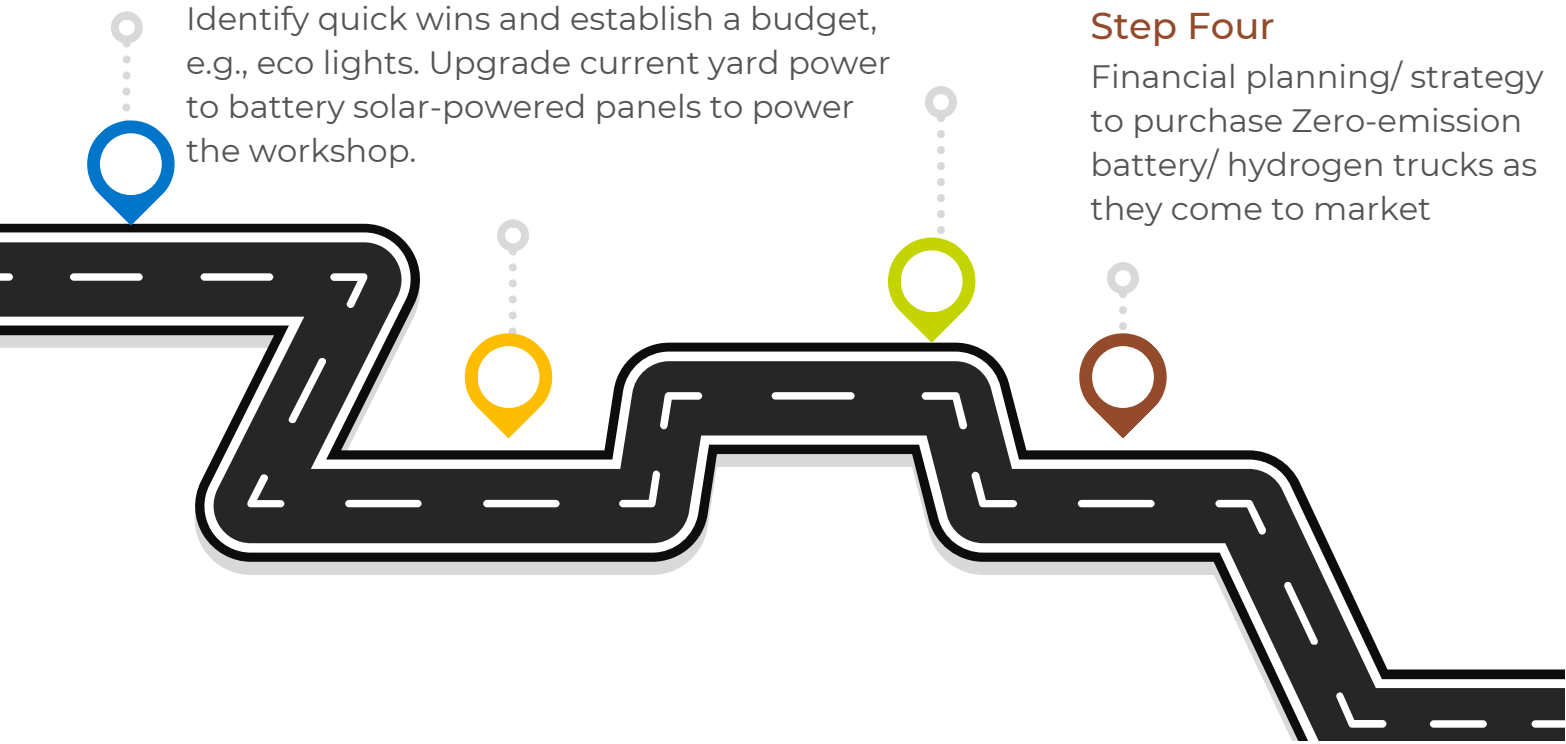

Identify quick wins and establish a budget, e.g., eco lights. Upgrade current yard power to battery solar-powered panels to power the workshop.

Step Three

Track equipment's carbon footprint and how much diesel to run per km. Measure carbon footprint usage at the yard.

Step Four

Financial planning/ strategy to purchase Zero-emission battery/ hydrogen trucks as they come to market

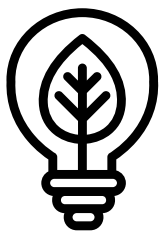

Decarbonisation

STRATEGY 2023-2030

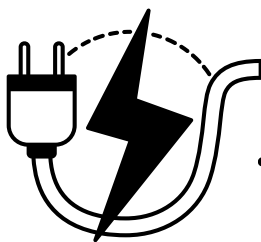

Consolidated GROUP OF COMPANIES

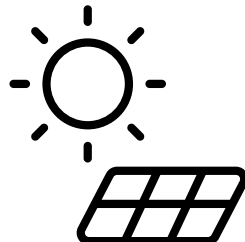

1

EMPLOYEE SAFETY & WELLBEING ALIGNED WITH ISO ENVIRONMENTAL STANDARDS.

2

IMPROVE CURRENT ENERGY USAGE.

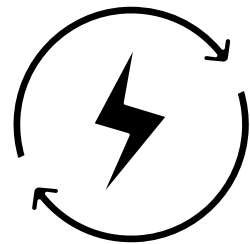

3

REPLACE WITH SOLAR.

4

REPLACE WITH BATTERIES.

5

SUSTAINABLE DEVELOPMENT FINANCIAL PLANNING & FORECASTING.
