

## Indigenous Training Programs

We are committed to meaningful Indigenous engagement through our partnership with Ashburton, delivering tailored training programs that build local capability and create sustainable employment pathways across the Pilbara. The impact is measurable: 80% of participants secure employment, and 25% remain in long-term roles with our business for more than two years — demonstrating our commitment to retention, career progression and enduring community benefit.

## R U OK GEORGE?

We champion mental health with our Blue R U OK George truck — a mobile reminder to check in, connect and promote wellbeing across the regions in which we operate.

We also proudly support autism awareness and inclusion through advocacy initiatives, helping foster greater understanding and acceptance.

## SANDON WA INC

Through our partnership with Sandon WA Inc and the Powering Women Project, we support events and programs that empower women — including networking, leadership in transport and construction, and professional development. This initiative celebrates and advances women in traditionally male-dominated industries.

# SOCIAL VALUE

## Breast Care WA Trailers

Our eye-catching pink trailers and trucks champion breast cancer awareness and support fundraising efforts for those affected by the disease. These rolling symbols of hope help spark conversations on early detection and community support.
